TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS, Solidity, Rust
- **Frameworks:** Next.js, React, Tailwind CSS, Node.js, Express.js
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Tools:** Microsoft Word, Excel, PowerPoint, Canva, Postman, Figma, Git, GitHub, AWS, Heroku, GitBook, Google Suite, GraphQL
- **Development Skills:** Web Development, Client Management, Documentation Engineering, Research Abilities, Blockchain Development (Web3), Software Development Life Cycle (SDLC)
- **Core Competencies:** Sales Management, Client Relationship Building, Data Management, Remote Communication, and Team Collaboration

WORK EXPERIENCE

Intern | Femtech IT, Ilorin

November 2021 – March 2022
Femtech IT provides tailored IT solutions and career development training.

- Actively contributed as a dedicated intern in a dynamic, fast-paced environment.
- Managed both front-end and back-end development for the company's Portfolio Analyst, Employee Tracking, and Account Management systems.
- Gained significant experience in using and developing APIs.

Software Engineer | Builderz

June 2023 – December 2023
Builderz specializes in software solutions development on the Solana Blockchain.

- Converted Figma designs into pixel-perfect user interfaces using React, enhancing user experience.
- Integrated Solana API and RPC into the web application, successfully facilitating seamless communication between the blockchain and front-end interface.

- Collaborated with a team of four to transition all front-end applications from JavaScript to TypeScript, implementing Redux for efficient state management.
- Led the design and execution of unit and integration tests, ensuring robust and error-free application performance.

Software Engineer | Web3-Builders-Alliance

February 2024 – March 2024
WBA sets the gold standard for Solana product development and education.

- Designed an escrow UI with Next.js, TypeScript, and Tailwind CSS using an Anchor contract (Solana program).
- Actively contributed to Solana smart contract development, gaining hands-on experience in writing, testing, and deploying Solana programs using Rust and Anchor.
- Collaborated with a cross-functional team to implement blockchain transaction flows, ensuring secure and efficient transaction processing within the app.

NYSC Intern | Nigerian Aviation Handling Company (NAHCO)

January 2024 – November 2024

- Provided end-user support, resolving 100+ tickets weekly through the helpdesk system.
- Installed and configured hardware and software, including operating systems and applications, ensuring minimal downtime and efficient system functionality.
- Offered technical support and troubleshooting for hardware, software, and network issues.
- Conducted staff training on new technologies and IT guidelines.
- Assisted in data management tasks, including maintaining and updating internal databases to ensure data accuracy and streamline access for authorized personnel.

COMMUNITY EXPERIENCE

Member | Google Developer Student Club (GDSC), University of Ilorin

May 2020 – November 2021

- Participated in Google Developer Student Club activities, focusing on Google technologies.

- Attended meetups & workshops, created content, and participated in industry events to promote and represent Google solutions

EDUCATION AND QUALIFICATIONS

Nigerian Navy Secondary School - High School Certificate [2015 - 2018] - General Certificate of Secondary Education (GCSE) main subjects: Mathematics, English, Chemistry, Physics, Biology, Geography, Further-mathematics.

University of Ilorin - Computer Science [October 2018 - October 2023] - Focused on System Analysis and Design, Human-Centered Design, Software Engineering, Telecommunications, Machine Learning.

EDX - Professional Certificate in Cloud and Application Development Foundations [Ongoing] - An online professional certificate for foundational understanding of DevOps, Cloud Computing, Application development.

KEY STRENGTHS

- Strong organizational skills with a keen attention to detail in managing client data and communications.
- Proven ability to work remotely and adapt to new schedules, with experience in handling tasks across different time zones.
- Innovative and tech-savvy, with experience in creating professional presentations, newsletters, and reports that enhance client communication and engagement.
